info@saunamanufacture.com
www.isaunahome.com

Attention!
Before you switch on the Infra/Finnish/Bio sauna, i.e. start heating the stove, always check that there are no towels or any inappropriate objects on or near the top of the stove.

www.saunamanufacture.com
www.isaunahome.com
www.outdoorisaunahouse.uk

HOME Screen

When you launch the app, the home screen is waiting for you. Two pages can be opened from the top menu bar:

MENU – selection of the sauna types, built-in extras and languages

SETTINGS – register and connect a new sauna

Below the top menu bar, you can see the current set **operating time** and the **current temperature** and **humidity** of your sauna cabin:
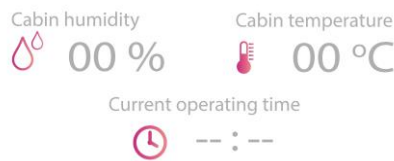

From the bottom menu bar, you can access the following functions:

FINNISH – Click on the button to access and set the Finnish sauna function.

INFRA – Click on the button to access and set the infrared sauna function.

BIO – Click on the button to access and set the bio/steam sauna function.

EXTRAS – Click on the button to access and set the extra options built into the sauna.

OFF – Click on the button to switch off all sauna functions and extras immediately.

www.saunamanufacture.com
www.isaunahome.com
www.outdoorisaunahouse.uk
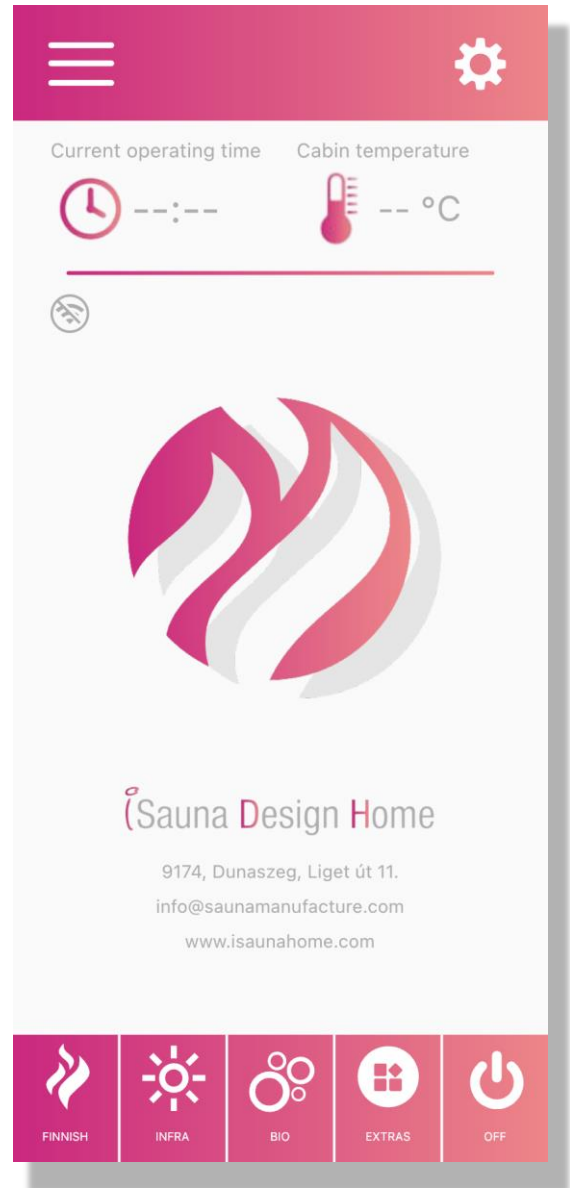

FINNISH Sauna Screen

You will see the FINNISH sauna page selected on the home screen. The selected page will change its colour to blue.

Here you can set the desired temperature and operating time.

You can also adjust the temperature by using the semicircular slider:

The winding/unwinding clock has an adjustable operating time, on which you can set the hours (H) and minutes (M):

START – Press the START button to start the sauna with the set values. After starting the sauna, the app will take you back to the START screen, where the current operating time counter will start.

BACK – This button allows you to return to the HOME page without starting the sauna.

www.saunamanufacture.com
www.isaunahome.com
www.outdoorisaunahouse.uk

INFRA Sauna Screen

You will see the INFRA sauna page selected on the Home screen. The selected page will change its colour to blue.
Here you can set the desired temperature and operating time.

You can also adjust the temperature by using the semicircular slider:

The winding/unwinding clock has an adjustable operating time, on which you can set the hours (H) and minutes (M):

In our infrared sauna, you can adjust the efficiency of the infrared panels individually. You can do this from the Section slider at the bottom:

START – Press the START button to start the sauna with the set values. After starting the sauna, the app will take you back to the START screen, where the current operating time counter will start.

BACK – This button allows you to return to the HOME page without starting the sauna.

www.saunamanufacture.com
www.isaunahome.com
www.outdoorisaunahouse.uk

BIO Sauna Screen

On the home screen, you can see the selected BIO sauna page. The selected page will change its colour to blue. Here you can set the desired temperature and operating time.
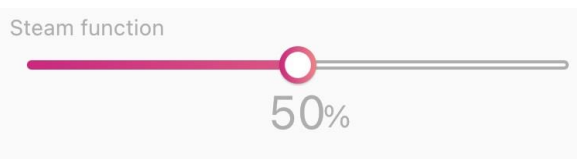

You can also adjust the temperature by using the semicircular slider:

The winding/unwinding clock has an adjustable operating time, on which you can set the hours (H) and minutes (M):
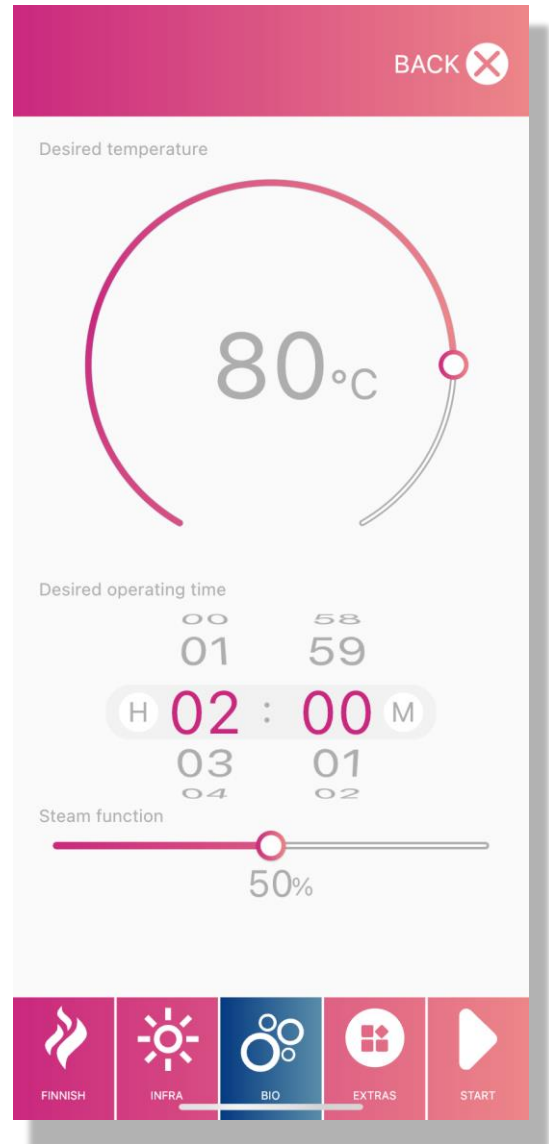

In our bio/steam sauna, you can adjust the air humidity to your liking. You can do this from the Bio function slider at the bottom:

START – Press the START button to start the sauna with the set values. After starting the sauna, the app will take you back to the START screen, where the current operating time counter will start.

BACK – This button allows you to return to the HOME page without starting the sauna.

www.saunamanufacture.com
www.isaunahome.com
www.outdoorisaunahouse.uk

EXTRAS Screen

You will see the EXTRAS page selected on the Home screen. The selected page will change its colour to blue. Here we can activate the options built into our sauna. E.g.: You click on the light button, which changes colour and the lights turn on.

LIGHTS – Here you can switch the sauna ceiling spot light.

LED – Hidden mood lighting switch under sauna benches.

**STARY SKY** – Switches the starry sky built into the ceiling.

VENTILATION – The electric sauna ventilation can be switched on here.

SALT WALL – The mood lighting behind the integrated Himalayan salt wall can be switched on here.

HEATING – Sauna floor heating on/off.

The temperature control and heating temperature can be set on the up/down dial:

05
04
03 ℃
02
01

17
16
15 ℃
14
13

RGBW – The RBGW LED colour adjustment built into the sauna is available.

LED colour adjustment

MENU Screen

You will see the MENU page selected on the Home screen. The selected page will change its colour to blue. Here you can configure the type of sauna you want to use and the extras you want to include in your sauna.

E.g.: If you have chosen only a combined Finnish and Infra sauna in your home, you can switch off the Bio sauna function. This means that the Bio sauna function will not appear on the "HOME" screen of your app.
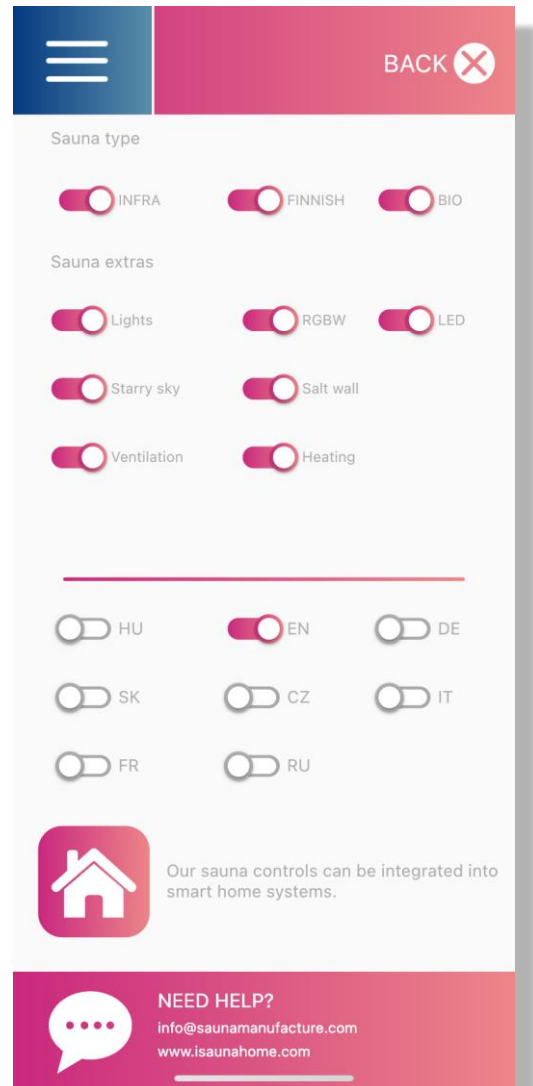

Likewise in the Sauna extras sections, if your sauna does not have a Himalayan salt wall, you can safely turn this option off. The salt wall button will then disappear from the "EXTRAS" application screen.

Language settings can also be found on the "MENU" page. You can only set one language at a time!

Our sauna app has been developed with the needs of our modern age in mind. The iSauna Design Home sauna app can be integrated into smart home systems. For more information, please contact our colleagues at info@saunamanufacture.com.

You can contact us using the Help button at the bottom of the page and our experts will answer your questions.

BACK – Use this button to return to the HOME page.

www.saunamanufacture.com
www.isaunahome.com
www.outdoorisaunahouse.uk

SETTINGS Screen

You will see the SETTINGS page selected on the Home screen. The selected page will change its colour to blue. Here you can start the registration process for your new sauna or join an existing registered sauna.

Use the ⊕ button at the top of the page to start the registration process for the new sauna.

In the middle of the page, you will find our already registered saunas.

You can switch saunas by pressing the Connect 🔄 button.

Use the Delete 🗑 button to remove the unwanted sauna from the app.

BACK – Use this button to return to the HOME page.

By scanning the QR code on the page, you can download the instructions for use and connection.

www.saunamanufacture.com
www.isaunahome.com
www.outdoorisaunahouse.uk

CONNECTING Screen

On the SETTINGS screen, you can see the selected CONNECTING page. The selected page will change its colour to blue. Here you can register a new sauna in the app.

You can scan the network using the Search button at the top of the page and the app will automatically detect a nearby smart sauna.
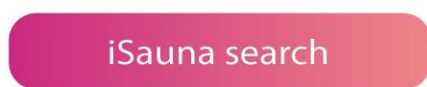

Touch the "Connect" button and connect to the sauna you have found.

Use the gear button in order to view and adjust the connection parameters.

You can also control the sauna via the Internet by connecting the sauna to the iSauna cloud.

For a detailed description of the sauna connection, see another document!

BACK – Use this button to return to the HOME page.

www.saunamanufacture.com
www.isaunahome.com
www.outdoorisaunahouse.uk
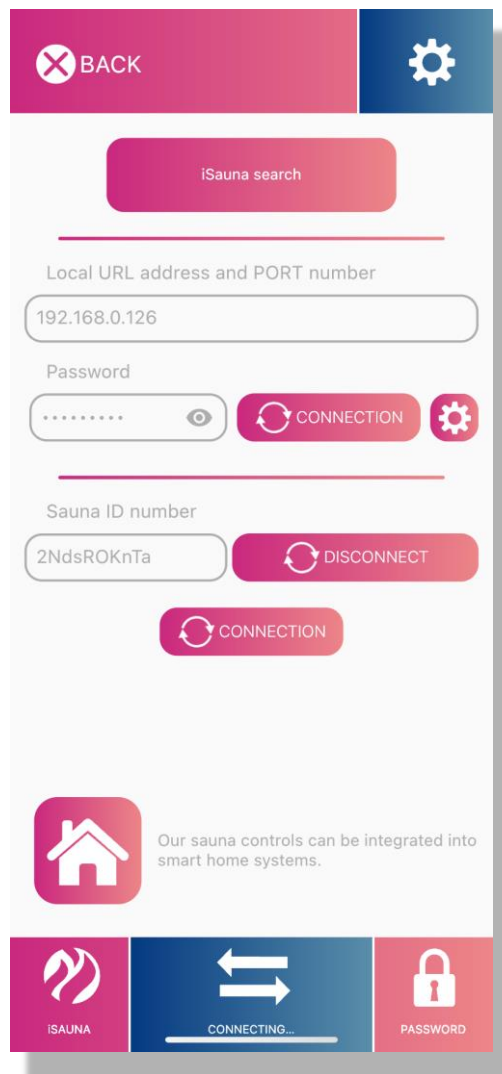

PASSWORD Screen

On the SETTINGS screen, you can see the selected PASSWORD page. The selected page will change its colour to blue. Here you can change the password used to connect to the sauna and enter the activation key.

BACK – Use this button to return to the HOME page.

iSauna Design Home
Connection Guide

iSauna Design Home

H - 9174, Dunaszeg, Liget str. 11.
info@saunamanufacture.com
www.isaunahome.com

Pay attention!

Before you switch on the Infra/Finnish/Bio sauna, i.e. start heating the stove, always check that there are no towels or any inappropriate objects on or near the top of the stove.

www.saunamanufacture.com
www.isaunahome.com
www.outdoorisaunahouse.uk

We launch the „iSauna Design Home" / "iSauna+" app, which can be downloaded from the App Store or Google Play.

The home screen is displayed.

Here we tap on "Settings" in the top right corner, which will redirect us to that page.

The "Settings" page will be displayed. Here we can start the registration process for our new sauna or connect to our existing sauna.

Use the ⊕ button at the top of the page to start the registration process for the new sauna.

Touch the ⊕ button.

www.saunamanufacture.com
www.isaunahome.com
www.outdoorisaunahouse.uk

The "Connecting" screen will be displayed. Here we can register a new sauna in the app. You can scan the network using the search button at the top of the page and the app will automatically detect a nearby smart sauna.

Touch the "iSauna Search" button.
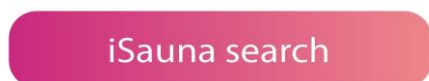

If the application don't find the sauna for the first time, retry the search for 2 or 3 times again.
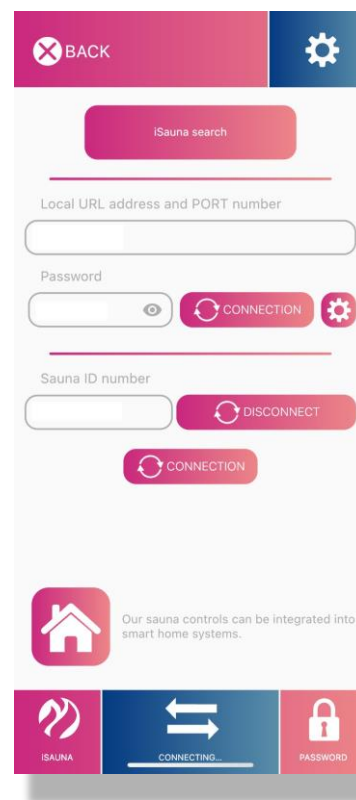

Once the search is complete, a pop-up window will appear with a list of saunas on the network. Select the sauna you would like to connect.

Click on IP number and touch the "OK" button.

www.saunamanufacture.com
www.isaunahome.com
www.outdoorisaunahouse.uk
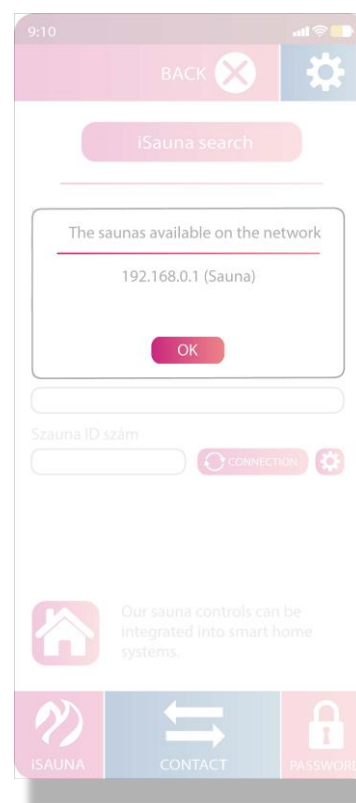

The app will automatically fill in the details of the selected sauna (URL and PORT number).

In the "password" field, enter the basic password which is bioszauna

Touch the "Connect" button next to the password and connect to the sauna you have found.

Use the gear button to view and adjust the connection parameters.

After your successful registration, the app will take you back to the page "Settings". Our sauna will appear here in the SAUNA list. The registered saunas are noted in the app and you can freely choose between them here on the page "Settings".

Next to the sauna, tap the "Connect" button.

www.saunamanufacture.com
www.isaunahome.com
www.outdoorisaunahouse.uk
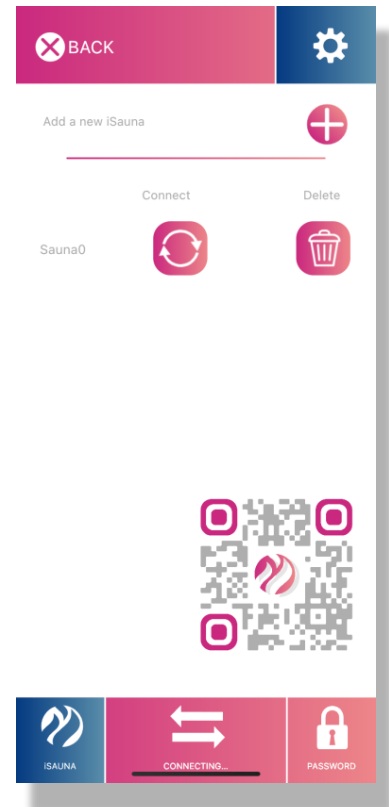

The app redirects you back to the "Main page" where you can control the sauna you have selected.

A "WiFi icon" appears on the left side of the screen to let you know that the app is connected to a sauna.

With the current settings, you can control your sauna via your home WiFi network in the app.

For a detailed description of way of using the sauna app, see another document!

www.saunamanufacture.com
www.isaunahome.com
www.outdoorisaunahouse.uk

"Cloud" Mode

In this mode, you can control the sauna from anywhere via the Internet using the phone app.

You can connect to the sauna either in "local" mode (Wifi) or in "Cloud" mode, both are not possible. In "Cloud" mode the sauna will not be accessible via the local Wifi.

It can only connect to the "Cloud" if the 30000 port is not disabled on the router.

Pay attention!

Before you switch on the Infra/Finnish/Bio sauna, i.e. start heating the stove, always check that there are no towels or any inappropriate objects on or near the top of the stove.

Once you have tested the sauna with the app in "Home" mode and everything works fine, you can start connecting to the "Cloud".

On the home screen, by tapping the "Settings" button in the top right corner you will be redirected to the given page.

www.saunamanufacture.com
www.isaunahome.com
www.outdoorisaunahouse.uk

The "Settings" page will appear, where you can see our registered saunas.

Select the "Contact" button in the bottom menu bar.
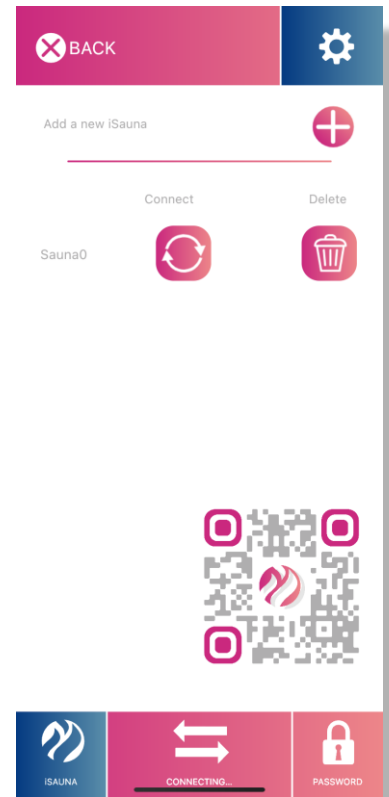

The application remember the URL and PORT numbers of the sauna.

In the "Sauna ID number" empty box, we fill out whit the sauna serial number. The serial number can be found in the LAN/WIFI modul box. (The LAN/WIFI model is placed in the sauna service box)
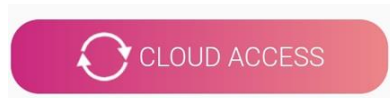

The sauna then tries to connect to the cloud (10-30s), if successful, the "CLOUD" Led indicator light in the LAN/WIFI will light up.

If the application does not connect automatically you will need to manually configure the cloud connection using the ⚙ diagram.

The sauna has been successfully connected to the iSauna cloud and is ready for web control.

www.saunamanufacture.com
www.isaunahome.com
www.outdoorisaunahouse.uk

Touch the botton "Connection" button under the "Sauna ID number" field and then connect the application to the cloud.

CONNECTION

After your successful connection the application takes us back to the "Home page".
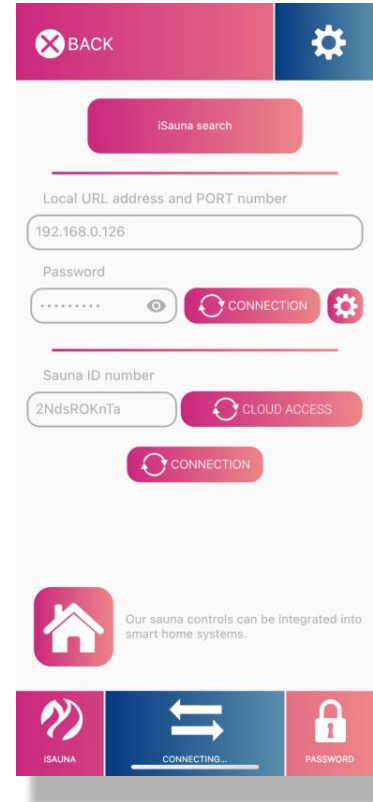

Here you can control the selected sauna from the "Main page".

A "Cloud icon" will be displayed on the left side of the screen to let you know that the app is connected to the Cloud and the sauna can be controlled from anywhere via the Internet.

For a detailed description of way of using the sauna app, see another document!
