

BE AN ISAUNA MANUFACTURE FAMILY MEMBER!

Our family manufacture was established in 2004, so that we can familiarize our philosophy about sauna manufacturing with Hungary and Europe: from the beginning we were focused on long-term quality; to stand out from the crowd. There was no other option for us!

We wanted to let our customers see what benefits come from the daily usage of a consciously planned sauna, sauna house or private wellness centrum. Our family manufacture is a recognized name in the industry, even on a national level!

Lately we have expanded with new industry quality machines and additional manufacturing space. It is essential for us that our products are manufactured under green and sustainable circumstances, therefore the groundwater and sunlight of the Szigetköz is providing the energy-supply of our manufacture, with the help of geothermal cooling-heating and solar panel systems.

PLANING – IMPLEMENTATION – SERVICE IN ONE HAND!

An important part of our philosophy is meeting our customers in person, and their needs as well. This way we can provide them with personalized and long-term solutions! Our unique products are handmade exclusively by Hungarian experts with passion and comply with national TÜV certification. The iSauna Design Home products are made based on constantly renewing trends, and therefore can be worthy accessories for homes, gardens, terraces, wellness hotels, fitness centers and home wellnesses.

Are you curious about how they are made?

Come visit us in our manufacture and take part on a controlled factory-visit, without any obligation.

PERSONALLY FOR YOU!

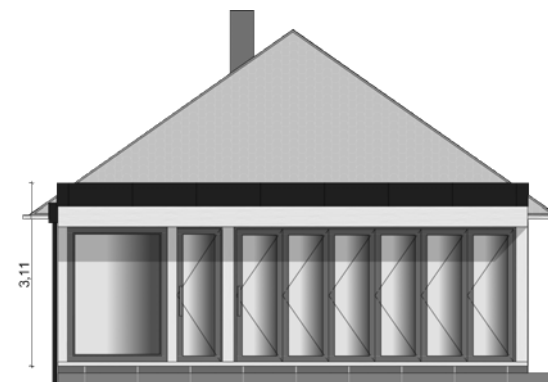

The implementation of a sauna wellness winter-garden has many benefits: it provides our home with more useful space, makes it more spectacular, functions as a green-oasis all year round and will probably be the favorite place for the whole family.

You think of yourself as a unique character?
You reject mass products and basic solutions?
If you recognize yourself, do not wait any longer!

Connect to hand made quality with iSauna!

ARE YOU AN OWNER OF A HIGH-
STANDARD HOTEL, GUEST-HOUSE
OR PENSION?

Have you ever thought about increasing your income in the winter months?
Let us expand your wellness services together for winter usage,
unique quality and let's double the profit!

OUTDOOR WELLNESS SAUNA

Taking a sauna can be a lifestyle, part of everyday life, relaxation and rehydration at once. A from and structure that withstands time, made for multiple generations. The combined sauna helps our system get rid of excreta, it is effective for strengthening the immune system and regenerating veins.

WHAT IS THE CONNECTION BETWEEN VINE-CULTURE AND SAUNA?

The first and most ancient connection hides in the trees. The Thermowood method, which is used to strengthen sauna paneling, was discovered by viticulturists. The end of the vine-stocks was steamed at such temperature, that doesn't burn the tree, therefore making sure that it keeps its structure and function. That's just how it is with our sauna houses as well!

The iSauna sauna house placed in a vineyard is the perfect addition to a wine-tour and team building trainings! Perfect ending to wine tasting, trip or training!

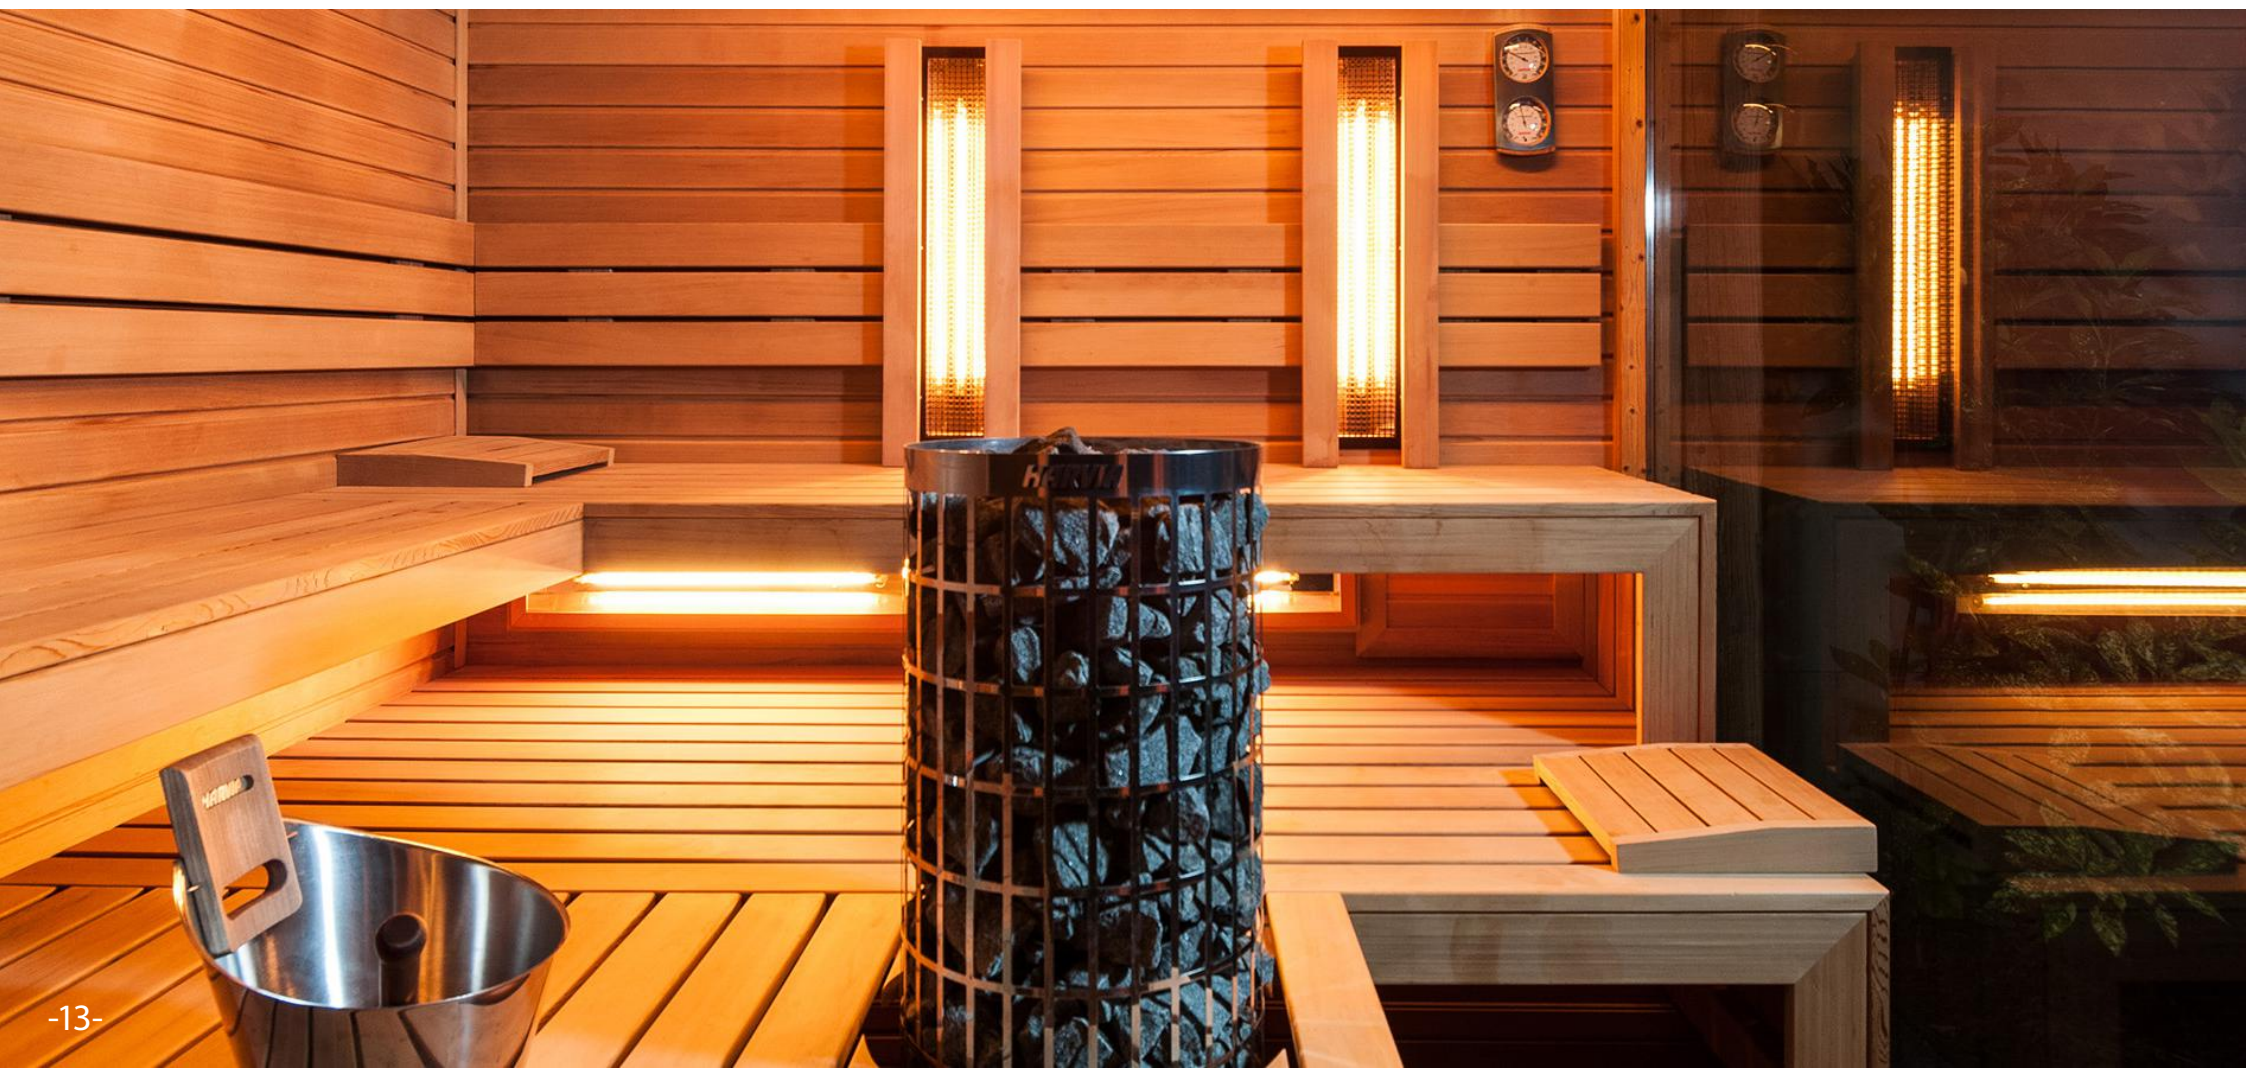

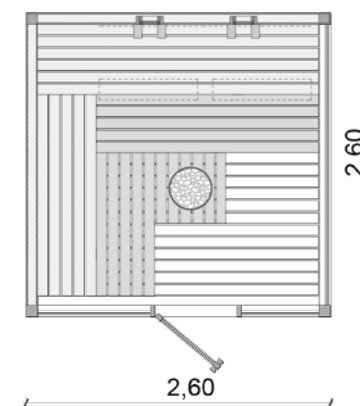

THE MEETING OF ETERNAL CLASSIC
AND OUTSTANDING SPOT

The implementation took place within distance of the basilica in Esztergom and the Danube on conservation area. So, it had to correspond with special regulations and aerial photographs!

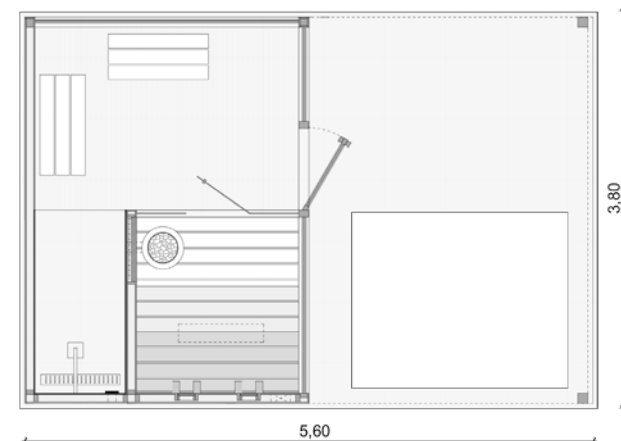

The outer design is provided by 60-70-year-old lumbars from Toscana. They were transported to Hungary after demolishing an old stable. After that they went through thorough restauration! The appearance of the roofing is ensured through a 200-year-old irregular stone, which was also delivered from South Italy.

PANORAMA OR GARDEN? YOU WILL LOVE THIS!

Take care of your health and prepare your immune system!
 Perfect for families of 4, for every time of the year.
 Multifunctional private iSauna wellness house, quality that lasts a lifetime!

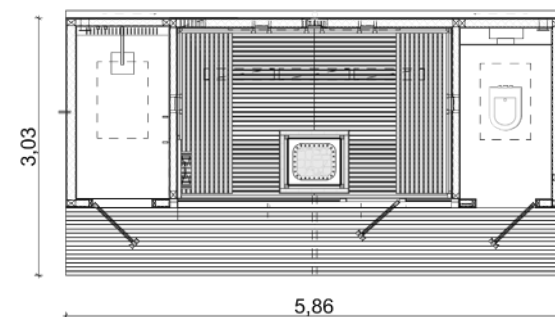

RUSTIC AND MODERN

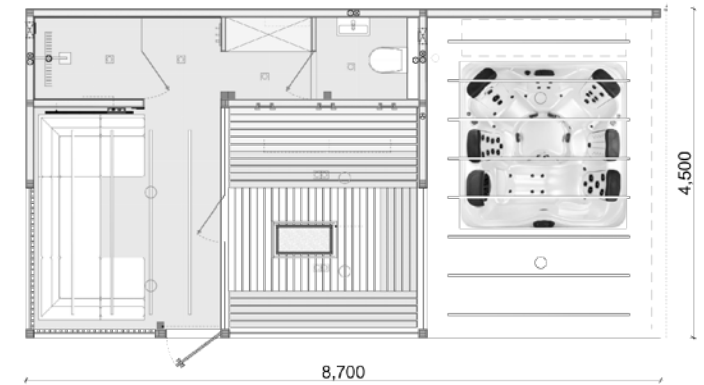

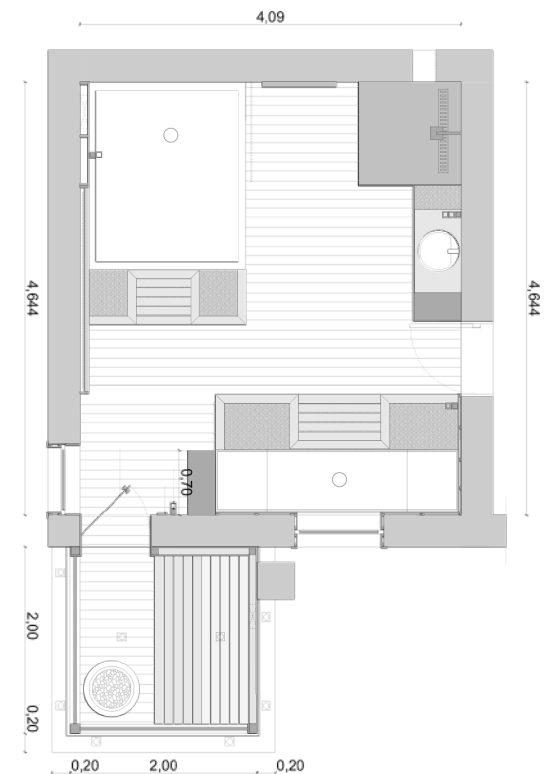

Nowadays the combination of rustic and modern style is very popular, which can be used not only for sauna houses, or exterior design but also for various solutions in interior design. A well thought out outside wellness oasis lets you relax, regenerate and get rid of stress and tension. The main point of a sauna garden is to provide complete physical and mental rejuvenation!

THE SIÓFOK PROJECT

Eternal panorama – wild horses – wave less pool and of course iSauna to paint the perfect picture.

WORK. UPBRINGING OF THE CHILDREN, DEADLINES?

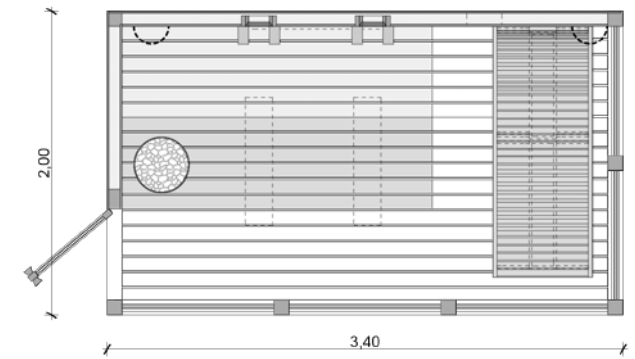

Step out of the hamster wheel of everyday life and relax in your own iSauna wellness-centrum! What is money worth, if we cannot enjoy it due to the lack of health? Lots of people work very hard and give their best for years, or even decades to be able to make something everlasting. It is essential that we take care of our health during this time as well, and always make time for recharging.

PANORAMA OF BUDA, ISAUNA ABOVE THE CITY!

Special location, unique needs?

UNIQUE DESIGN WOOD ELEMENTS INDOORS AND OUTDOORS

THE THOUSAND FACES OF ISAUNA DESIGN HOME

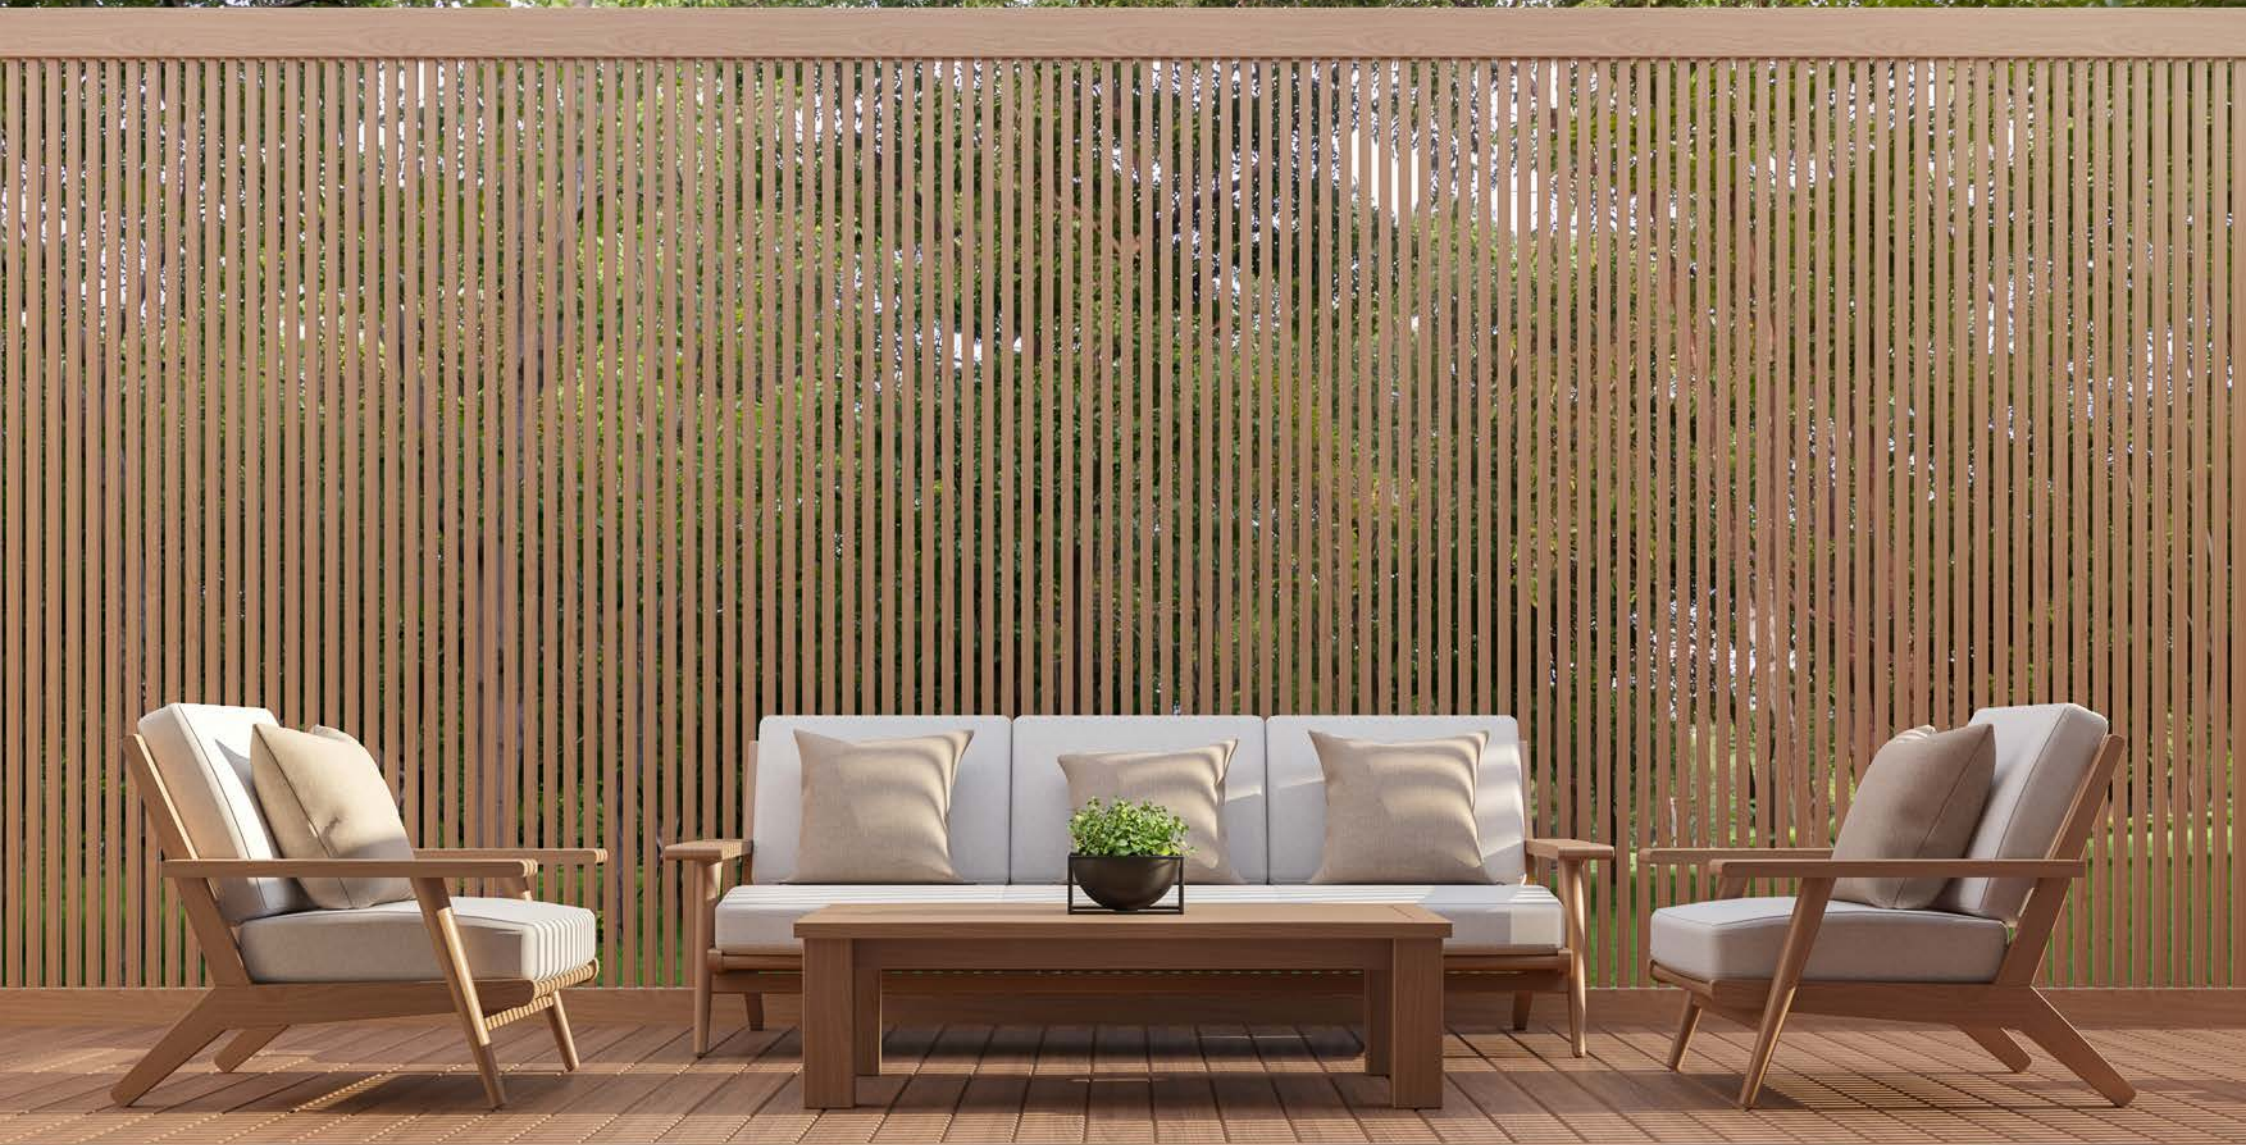

The HANDMADE indoor and outdoor solid wood awnings, interior-exterior wood paneling, room dividers, TV-walls from carefully sorted, high-quality lumber not only hold their value but also mirror a distinctive design.

Since 2004 from our constantly expanding family manufacture!

WE ARE WITH YOU EVERY DAY!

THE NEWEST GENERATION OF JACUZZIS

Development through engineers, cutting-edge technology, design and know-how: these are the components of a high-quality product.

Villeroy & Boch has developed a line of refined functions for their new Jacuzzi family.

One of the top energy-saving Jacuzzis. All this is provided by the complete insulation of the inner mechanism, the revolutionary piping (90% less than traditional Jacuzzis) and the thermal insulation of the cover.

From our constantly expanding family manufacture!

NEW LEVEL IN THE WORLD OF

SIMPLE ELEGANCE

Our customer is a fan of minimalism and had a firm idea about the appearance of the wellness area. This was not easy for us to carry out, but as always, we have found the best solution!

The front has gotten a completely individual, special glass-wall and fixation-system, making each joint be on the same level and letting the profiles to be hidden.

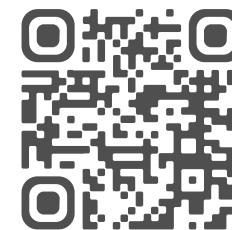

STICK OUT FROM THE CROWD

Our family manufacture has a team of outstanding and creative designers at its disposal, helping our customers find the best solutions. This guarantees that no money and useful space goes to waste.

Are you ready?

We are! Let's take a step toward success together!

2D PLANING – 3D PLANING - MANUFACTURING

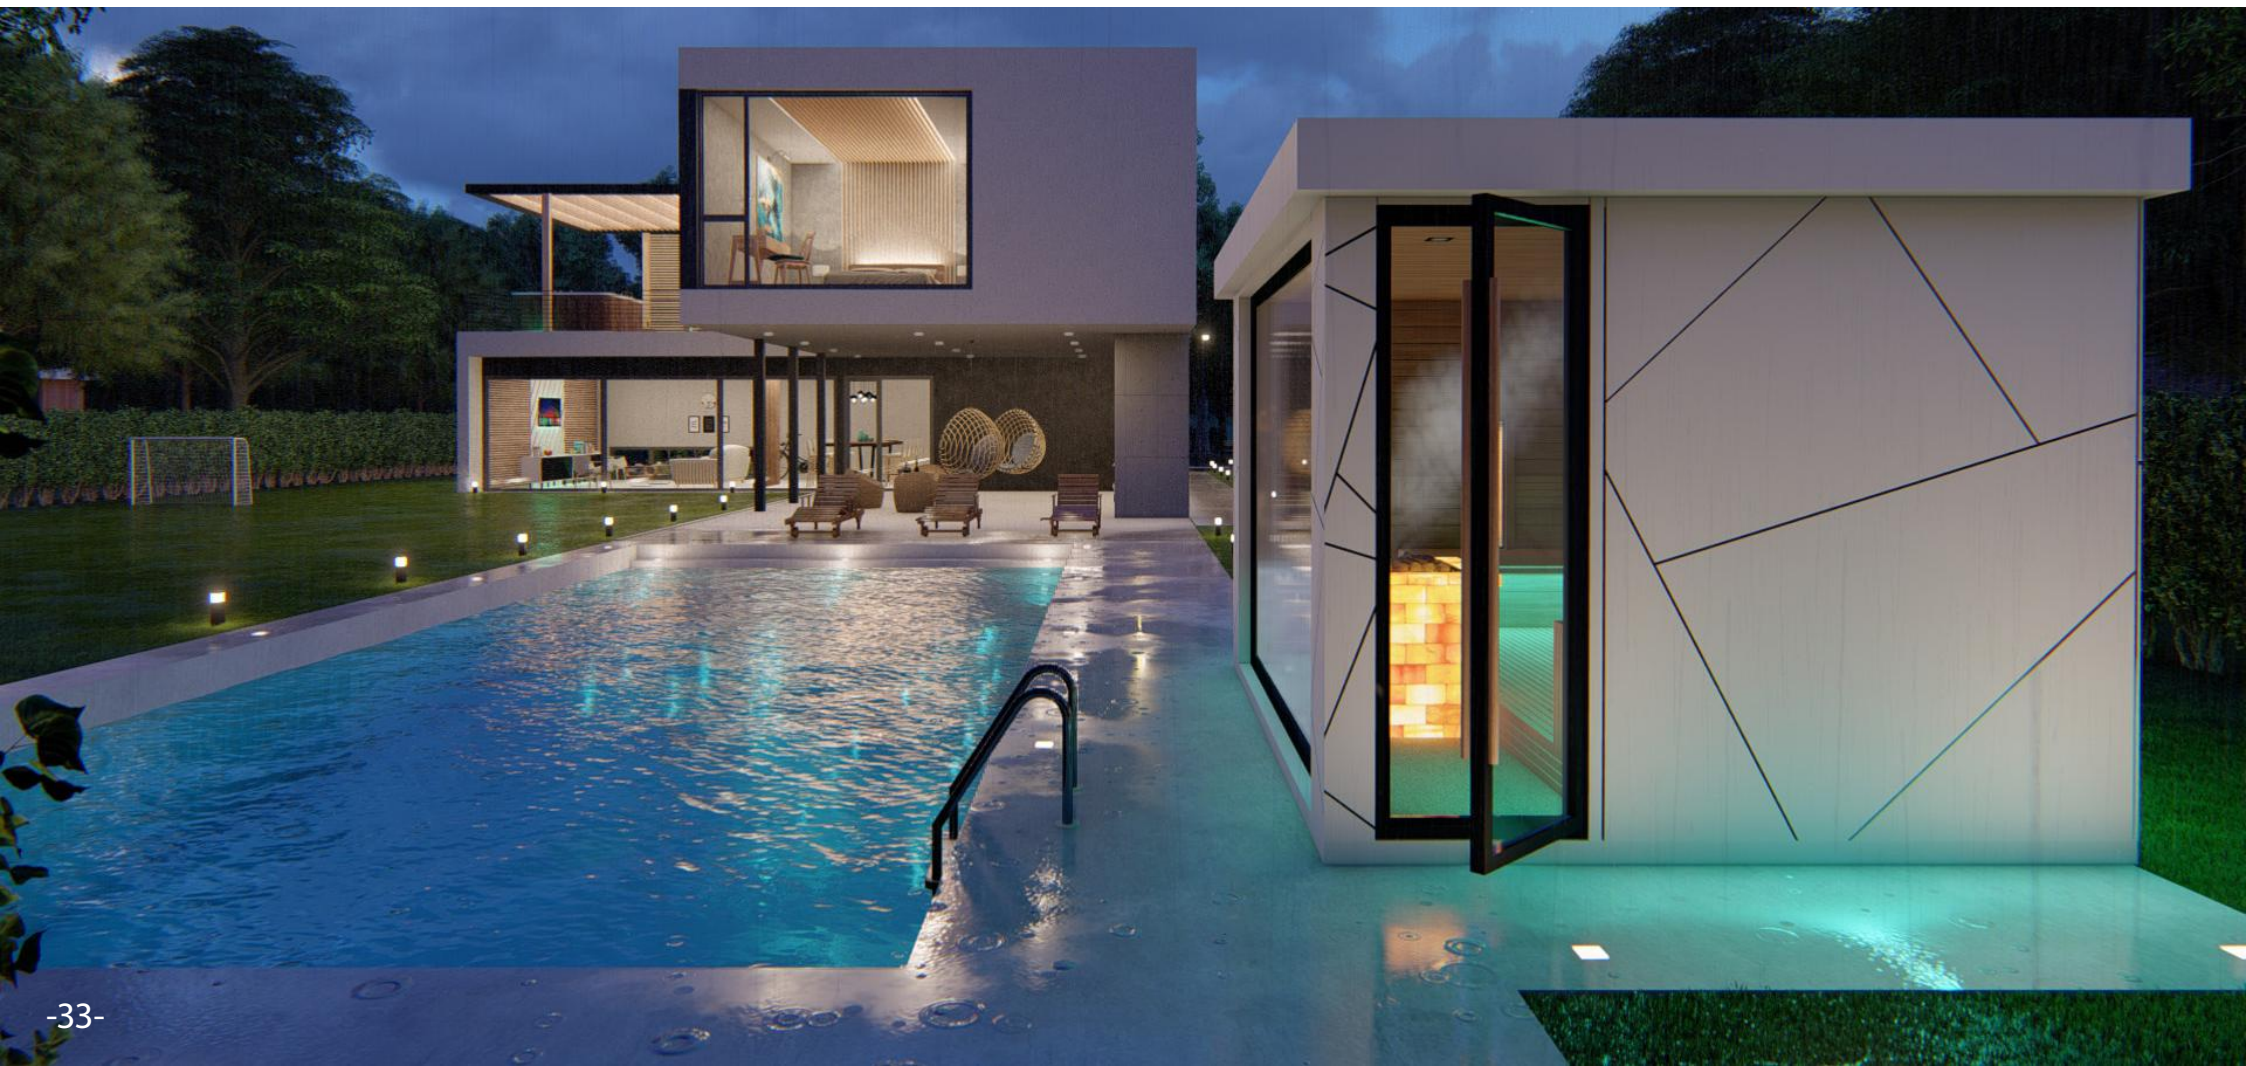

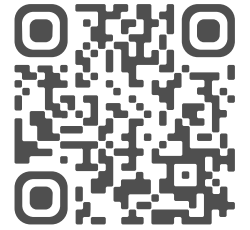

If you are looking for a manufacture that has everything under the same roof and only works with high-quality, we have great news for you!

You have just found it!

ARE YOU NOT EXACTLY A VISUAL TYPE? ASK FOR AN ANIMATION MOVIE ABOUT YOUR CONCEPT!

You can take a realistic walk inside the project, making it easier to feel the given surroundings, vibes.

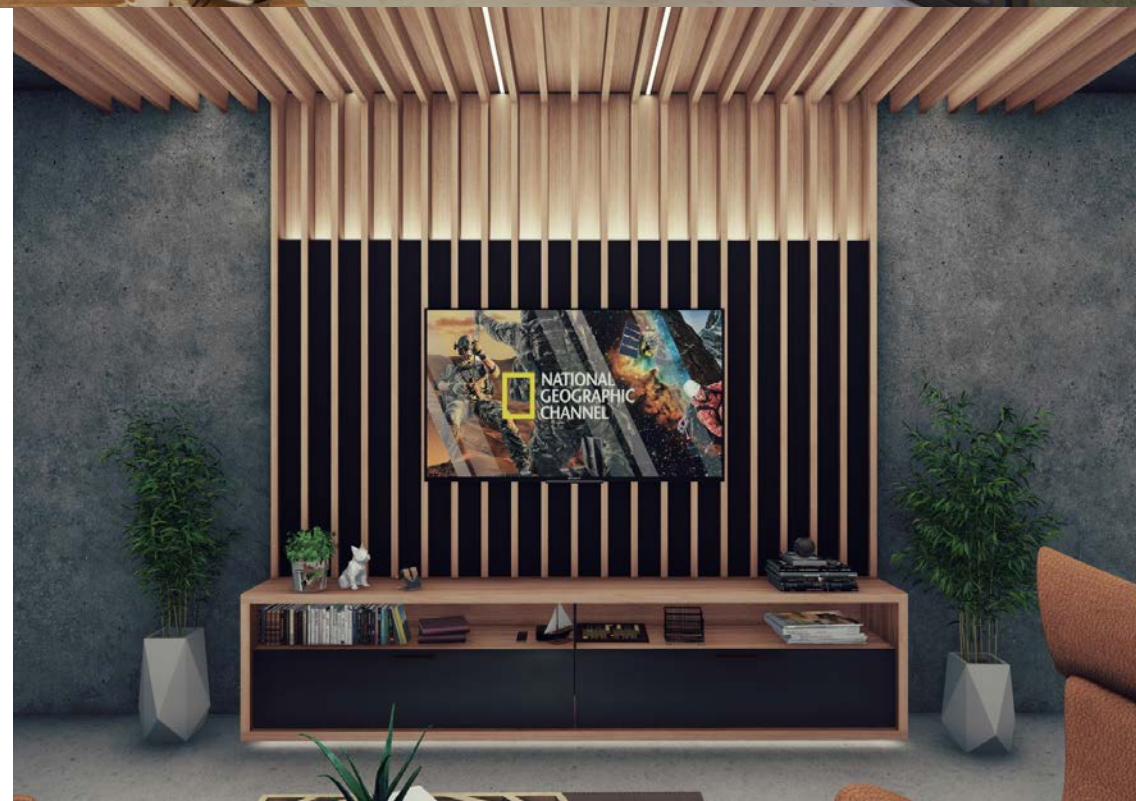

At the end you will not hesitate about who to choose!

WHAT SERVICES DOES OUR COMPANY PROVIDE?

Our manufacture deals with the technical planning of houses, flats, lawyer offices, wellness areas, outside wellness establishments, realistic 3D editing, 4K animation and professional implementation to help you bring your vision to life!

CONCIOUS INTERIOR DESIGN

Sophisticated materials, unique shapes, well thought-out details, designers with a devoted and dedicated mindset, all of which us based preeminent design expertise.

Interior design and architecture require the highest level of responsibility and they occupy the greatest value of use in the applied art segment. During the design phase the own knowledge and artistic ideas of the interior designer and the architect are being added to the design, and in the best case scenario, a part of their soul as well.

ISAUNA MOBILE HOME

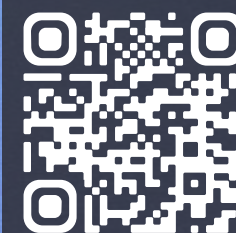

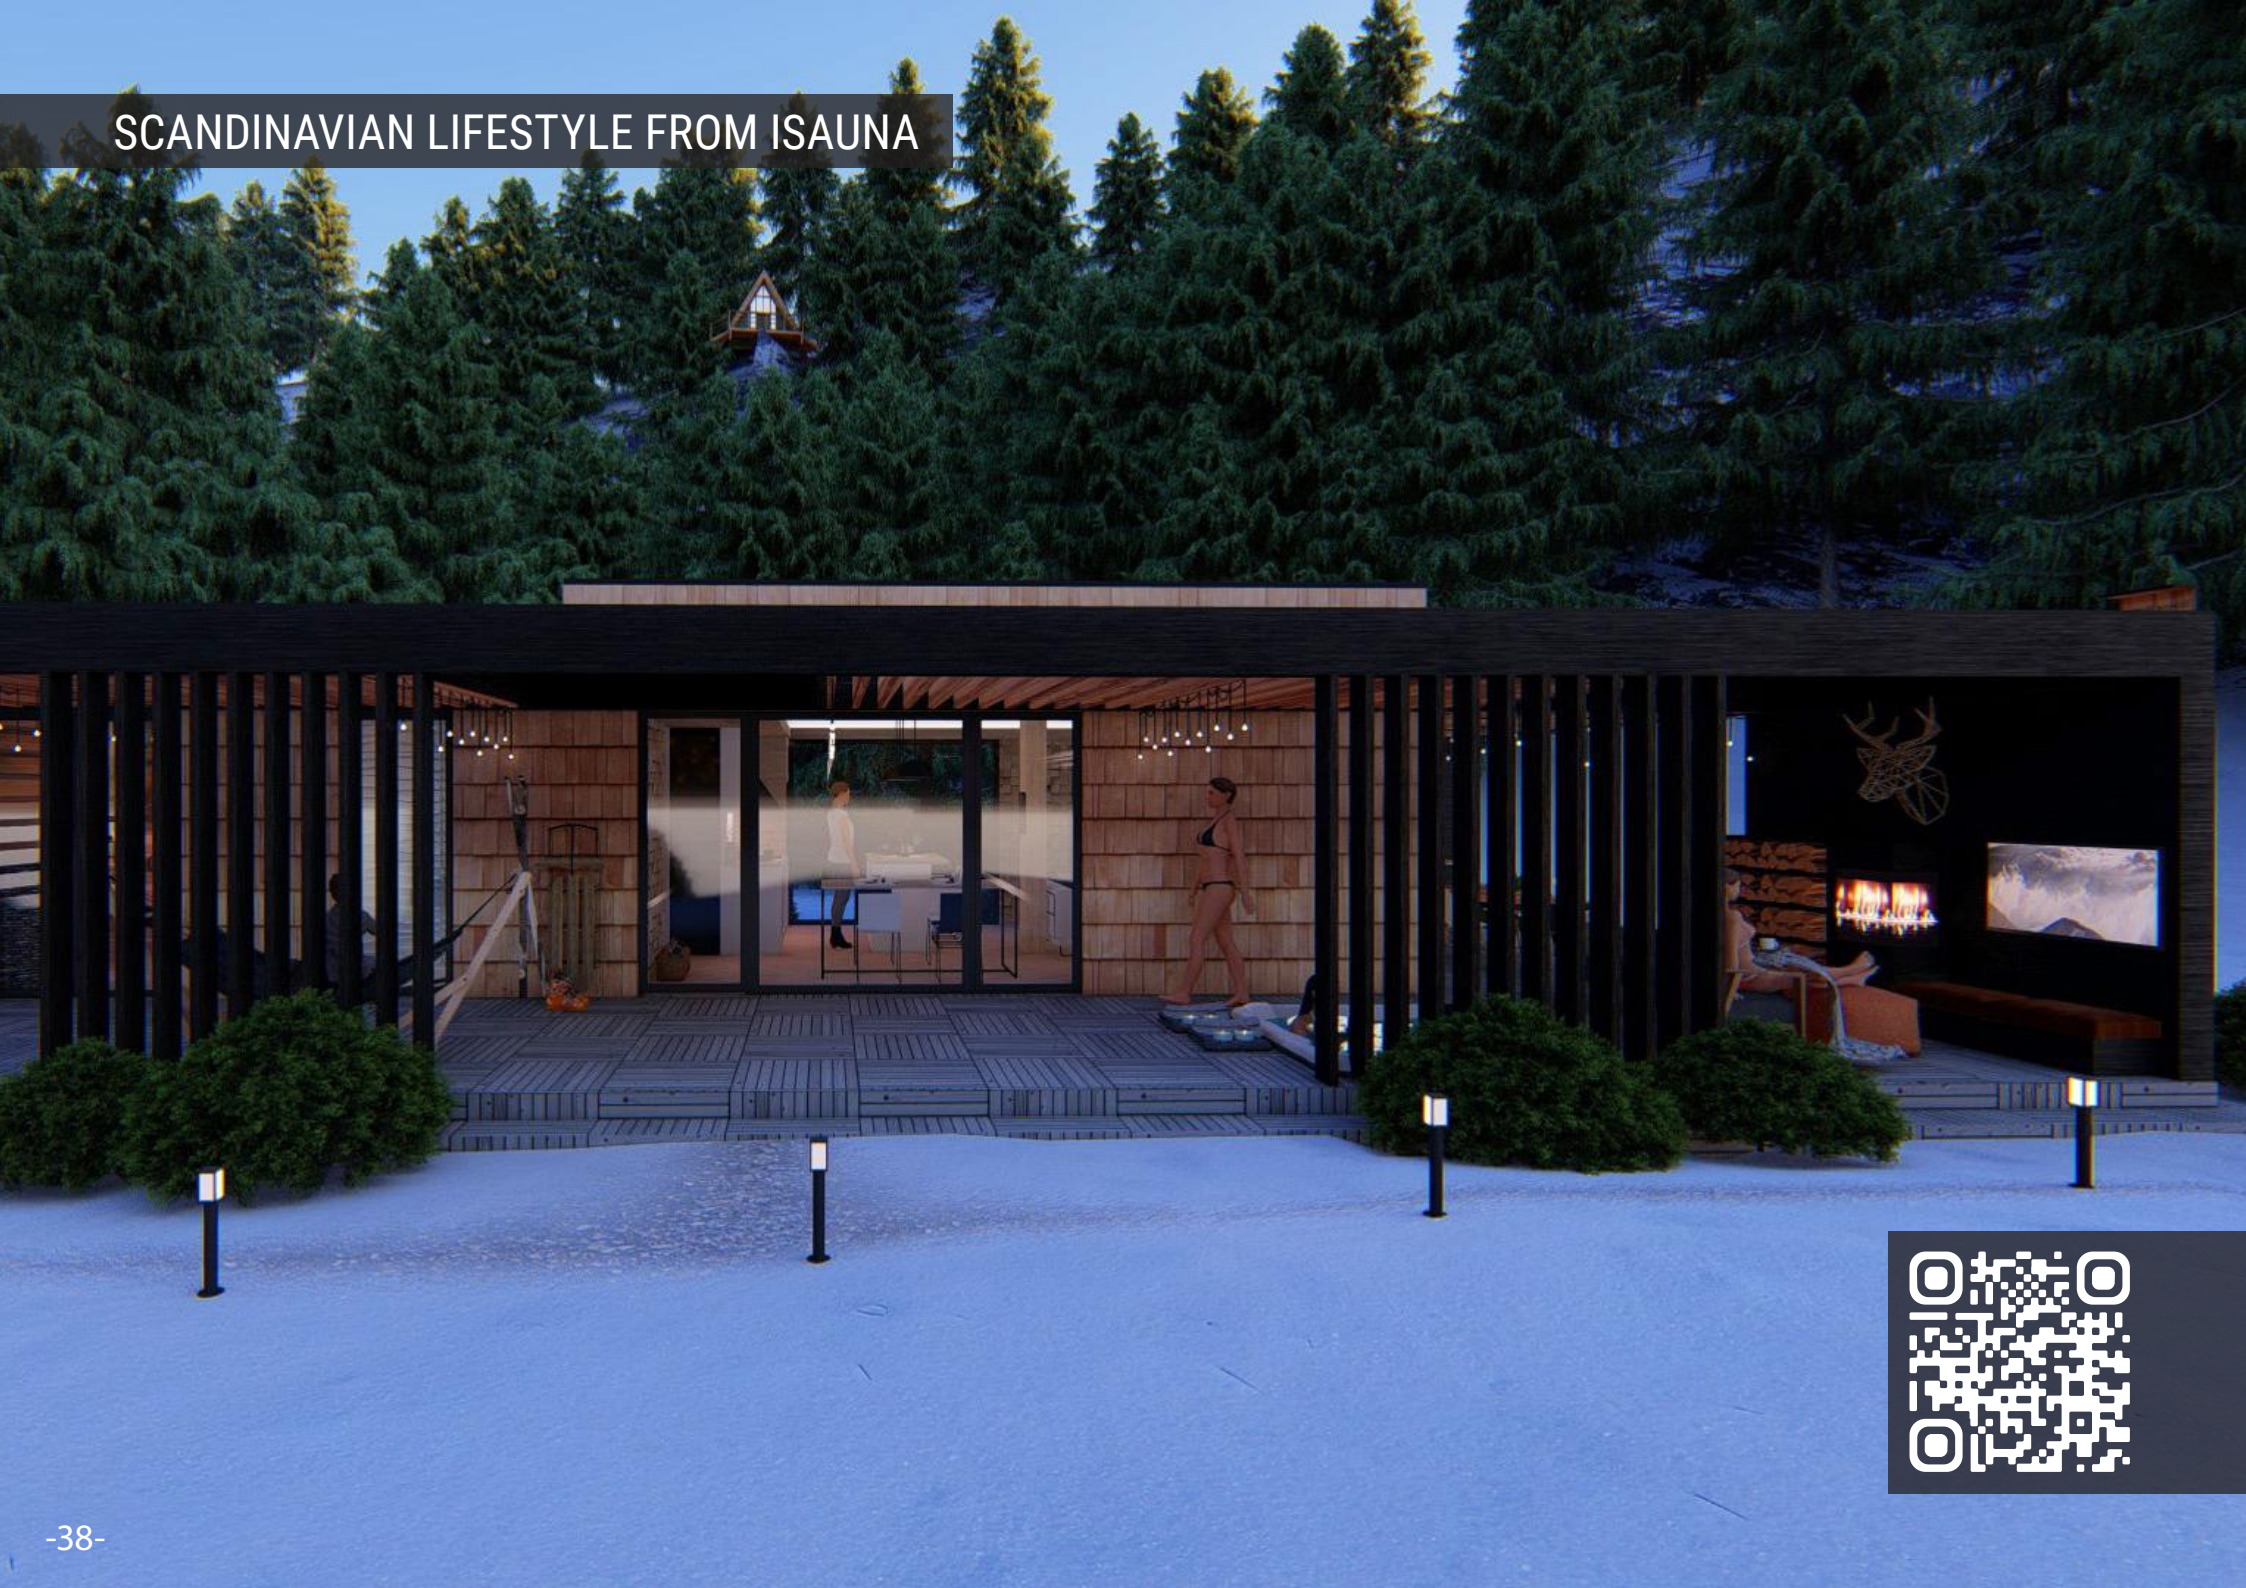

Every visualization is unique, just like your iSauna wellness sauna house. Whether it be your property, direct waterfront plot, garden or balcony, we plan the style of your sauna house according to your personality.

This Toscan-styled modern holiday home not only provides the family with an eventful holiday, but is a great investment as well. Thanks to the modular system, it can be easily transported on public roads and can be put together in even 5 weeks, in a turnkey condition.

SCANDINAVIAN LIFESTYLE FROM ISAUNA

Scandinavia is the home of mountains, fjords, islands and of course the sauna, where the folk has to fight with darkness and the adversities of the weather on a daily basis. The most defined features of the Scandinavian design: simplicity, modesty which is not equal to minimalism. Big windows are typical, since the sun does not shine for months, or only for a short period of time. This needs to be compensated with the setup and colors of the apartment. Natural materials, light colored flooring and organic forms
